Needs for Beggarman Ministries -

As we grow, and work toward opening up our 2nd house to double our capacity, there are 4 main ways you can help and support us.

1 - Prayer & Encouragement! We know that we cannot do this alone, and we could use prayer and encouraging words along the way. The residents fighting to get back on their feet, the house managers helping to walk with them, the

While Having A Blast!

mentors & sponsors seeking to provide guidance, Eric & his beautiful wife Ali as they seek to direct, the board of directors as they seek to guide the organization, and the volunteers giving their time in countless ways to empower us. It takes a team, and we all need prayer!

2 - House Rehab help & resources. We are desperately working to renovate our new house to accommodate 8 more residents, and we need help. IF you are able to lend a hand, oversee a project, or have referrals or references, please let us know. We could use help with electrical, framing, deck-building, drywall, flooring, siding, roofing, landscaping, parking and more! It's a task too big for us, but not too big for our God and the community He brings to us!

3 - Financial help for ongoing growth. Our annual budget will increase about \$45K this year as we expand our mission and vision. We depend on the generosity of others to keep offering a safe place to get back up. A one-time gift, or a monthly commitment - no matter what amount - is powerful, helpful and needed. See below for giving details! And BLESS YOU!!!!

4 - Opportunities to share our mission & vision with organizations, schools, recovery groups and churches. Our primary tool for building our ministry is through sharing music, speaking, and worship all around the country. So if you or someone you know would be interested in having Eric and the Beggarman crew come share, please let us know!

A Beautiful Restoration Story -

Ryan's Story - Flipping the purpose & Restoring divine gifts.

We believe that each one of us is created with abilities and gifts from the Creator meant to bring joy, love and hope to this world. Usually, what was given for good somehow gets misled, wounded or hijacked by life's pain & poor choices. Occasionally, we get to see God restoring the mis-guided divine gifts in the lives of those He brings into our houses. Ryan, one of our new residents in 2025, grew up with a love and passion for music. During his first 40 years of life, he played & sang in numerous bands – but it was he was living a life that led to pain, darkness and prison. After 30 years of meth, divorce & broken family, he ended up serving 10 years in prison.

While Ryan was incarcerated, he sobered up, found a deep faith in following Jesus, and began to use music to play & sing in prison chapel services. When he was up for release, Ryan found out about Beggarman Ministries from another inmate who had paroled out to us. Upon his release, he moved into "Grandma's House" and began playing and singing with Eric at local church and community events. He now has a solid job, his own car, his own recording equipment and instruments to jam all the time! Because of the safe place to get back up, Ryan was able to stay sober, get on his feet and use his music for God! It has been a beautiful story of watching God redeem Ryan's gifts. Next time you come see Beggarman Ministries share or play, Ryan will probably be there on drums, guitar or singing!

This is the purpose & hope of our ministry – to help others rise back up and keep taking one step at a time in the right direction with the help of a healthy community and an internal understanding that God is redeeming their story. He has done it for me, He can do it for you! Thank you for all of you who support us and empower Beggarman to participate in these redemption stories! *name changed for confidentiality.

Thank you!! for helping us create a safe place to get back up. Lord bless you all as we all seek to simply "do the right next thing!"

Eric *Alexandra Ott*
